### ECONOMY THAT DOESN'T PAY.

Two years ago Congress appropriated something like eight hundred thousand dollars with which to encourage the carrying of foreign mails in American vessels. Mr. Viles refused to use the money for which it was intended, and what he did use went to English steamships largely for the reason that they could carry the mail for less money than the American ships. He cared nothing for the interest of American carrying trade; he was looking after economy and he procured he got it. He saved a few dollars very likely, but crippled the interest of American steamships.

England doesn't do that kind of thing. It never loses an opportunity to encourage its steamship lines and never grows weary in its effort to control the commerce of the world for the benefit of the British manufacturer. Every now and then it subsidizes a steamship company, saying that it may be the better able to compete with the steamship companies of other countries. It is said that the Northern Pacific steamship company, which England has lately subsidized will make the effort to drive out of business the American line, the Pacific Mail and serve to one it will succeed for the reason that the financial power of the British government is behind it. The English vessels are paid a fine sum for carrying the mail, and the American vessels are not. Had our government been half as generous in encouraging the line as was those of its other end, it is a few years it would have been self-sustained. But Mr. Viles, the postmaster-general of the present administration, disdainfully disregarded the act of congress providing a fair and decent compensation for carrying the ocean mails, and consequently the Australian line had to be abandoned.

It is said that the Pacific Mail Company "wants to build two new steamships for its Chinese route, but whether to employ American ship-builders and sail them under the American flag, subject to the legitimate demands of the government, or to go abroad for them and save \$200,000 dollars by employing foreign labor and then to sail them under a foreign flag, will depend upon the action of the administration."

One who has studied this subject thoroughly well, and has considered the question thoughtfully in all its bearings, makes these suggestions: "Why Mr. Cleveland and Mr. Viles continue to pursue their insane policy toward the shipping interest is more than sensible people can understand. The shipping of England, which now earns \$400,000,000 annually and employs 1,500,000,000 men, and carries 1,500,000,000 tons of goods, and exports 300,000 tons of goods, and grows from 300,000 tons thirty years ago to 6,000,000 in 1885. English statesmanship has done this. England knows that it pays the people in good pounds and pence to encourage the carrying trade, and it pays \$5,500,000 a year to get its mails to their destination. This country pays only \$25,000 and less than \$50,000 of that goes to American lines. In order to save \$3,000,000 we think it wise to lose at least \$200,000,000."

The Railway Review after commenting on the Olathe disaster, gives the following figures: "This makes the eleventh heavy railway accident of this year. The preceding ten which have led up to this climax of horror, may be enumerated as follows: January—Devils River (Tex.) collision, fifteen killed; December—collision, sixteen killed, twelve injured. February—Woodstock, Vt., collision, thirty-two killed, thirty-six injured. March—Dunbar bridge, thirty-one killed, 100 injured; Norfolk & Western bridge, eight killed. April—Northern Pacific collision, six killed, eight injured. July—Grand Trunk collision, thirteen killed, 200 injured; Erie collision, thirteen killed, five injured; Chicago & Alton collision, fifteen killed, thirty injured.

In New York City the sale of paintings by gas light has been prohibited by a city ordinance. Under a jet of gas carefully adjusted to a reflector, throwing a soft light on the easel, a perceptive and hoarsely dazed of green, yellow and red vermilion may be made to look like a real work of art, and an expert citizen happening into a picture gallery where this apparatus is used will find himself bidding \$50 or \$55 on a "study" that would be dear at \$1.50 for a sign in a cigar-store window.

Of the sixty counties in New York state one-half were represented Thursday at the opening of the Farmers' Alliance state convention, the object of which is to secure reform in the present system of taxation. Resolutions were passed calling for a just and equitable distribution of taxes on real and personal property, and asking that all persons be made to disclose the actual amount of their personal property to be subjected to taxation.

The Kansas prohibition law is developing some peculiar thing in the drug line. In Wichita, for instance, a supposed drug store has been found to be a combined whisky still and saloon, the liquor being made on the premises by the lighting process. In one barrel of the stuff enough arsenic was found to poison the whole town. There is nothing slow about Wichita.

The civil-service commission has received from the secretary of war requests for the certification of 212 eligibles, all males, from whom fifty-three selections may be made to fill vacancies now existing in his office. This is the largest requisition ever made upon the commission.

ment of Senator Sherman by Ohio was not a mere pretense, but was "open above-board and sincere." The governor thinks Mr. Sherman's strength as a presidential candidate is constantly growing.

The governors of Kansas, Colorado, Ohio, Wisconsin and Minnesota have revoked their quarantine proclamations against Illinois cattle except as they apply to Cook county. The Iowa and Wyoming proclamations have also been modified.

Governor Bartlett, of California, seems to have changed his mind about dying, and it is now thought he may recover. A Democratic officeholder never resigns and seldom dies.

Mr. Cleveland is a much wealthier woman than is generally known. Congressman McShane says the Omaha property in which she and her mother each have an eighth interest is worth \$500,000.

Since June 23d an oil well on the Martin farm, near Oil City, Pa., has yielded a profit of \$38,600, and is still sending out fifty barrels an hour. There seems to be a good deal of oil in the earth yet.

A rich flow of natural gas and oil is said to have been struck at Fort Snelling, Minnesota.

Must Not Accept White Pupils. ATLANTA, Ga., Aug. 27.—The Legislature yesterday passed a resolution taking away the \$5,000 appropriation to the Atlanta University which had been given to the Governor and instructing that it will not accept white pupils. It is believed that this resolution will be passed by the Senate and that the plan will not be put on its passage.

Business Improved. NEW YORK, Aug. 27.—R. G. Dun & Co., in their weekly trade review, note some improvement in general business throughout the country. The volume of legitimate trade is large, although in some important branches there is a shrinkage. The tendency of prices for most commodities is upward.

Wedded to an Indian Heiress. PHOENIX, Ariz., Aug. 27.—Douglas E. Carlin, chief clerk of the City and County, was married here yesterday to the wealthy heiress of the Sioux reservation. The ceremony was witnessed by over 1,000 Indians, and the festivities will last three days.

Importing from Sweden. BERLIN, Aug. 27.—The Cologne Gazette says that large quantities of pig-iron are being exported from Sweden to Pennsylvania for railway bridges.

A Wonderful Machine but it Will Wear Out. There is no doubt that man is a fine mechanism, but like every other machine he wears out by friction. It is said that he is born again every two or three years.

His body is virtually remade from time to time. To retard this making over is radically wrong, as a man loses so much vitality in the delayed process that it takes a long time to recuperate. The purging with Brandreth's Pills takes a new man, as it were, may be made in two or three months, and the change in the mechanism is such that the worst part is replaced by the new.

ROCKED BY THE SEA. The Boston Transcript tells the story of an official of that city who felt a desire to become a yachtman so strong that he was only satisfied by the purchase of a small boat. "On the very first Sunday after his purchase he took his boat out and started off all alone to cross the harbor. Near one of the little islands he took it into his head to go ashore and explore the place; but as he was a little doubtful about his ability to land there from the boat, he set about trying up to a buoy some distance from shore. He got into the boat as he was in his small boat, which he was towing. He got out upon the buoy with the painter in his hand. Suddenly the boat was carried away with a rush, snatching the painter out of his hand and leaving him alone on the buoy. There he remained what seemed an incredible time, calling for help, but being so far from shore and being so weak and side to side as the freshening wind rocked the buoy, and shouting vainly for help. The water began to dash over him from head to foot, and his cap was becoming dangerous, when the police boat, going down the harbor, happened to see a catboat with a small boat in tow, cruising about without a crew. This incident led to a search, and presently the city official's yell was heard in the distance. He was rescued, rather more dead than alive."

Beat Perley Poorer Hay. Major Ben Perley Poorer never made any money off of his fine Indian Hill farm, Massachusetts, although under shrewd management it would have returned him a good income. A thirty-day Boston Record as saying: "Several years ago the Major cut two hundred tons of hay off it. Hay was worth twenty-two dollars a ton then. But, by George, the Major didn't sell a pound of it! Not a pound! He just fed it to those old white cattle of his that he kept just because they didn't have a black hair on their heads. They all died on his hands. He never thought of selling or killing them. And then his itch-string was always out. How could he save money?"

A CARD. All who are suffering from the unction and indiscretions of youth, nervous weakness, early loss of manhood, etc., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to Mr. REV. JOSEPH T. LYNCH, Station D, New York City.

A Chinese Complexion. When observed in one of the Cantonian race, is indicative of bile in the blood. Who would be yellow when he or she can exhibit the hue of health on cheek and brow through the aid of Hostetter's Stomach Bitters, purges out the bile, and restores the complexion to its natural color. In light, fair upon the tongue, nausea, sick headache, pains under the right ribs and shoulder blade, an unpleasantly odorous breath, are remediable with this bitters. A Chinese complexion, which does not, like a rosy complexion, drop the complexion, like the mercurial preparations, contaminate the blood. Not only the liver but the stomach and bowels are aroused, toned and regulated by this fine medicinal medicine, which has the combined effect of the most reliable medicines, not by starting assertions on its behalf, but by the consistency of the claims made for it with its performance in every instance when tested.

The call for oysters at the Star is growing faster than it can be supplied.

## OUR CHARITIES.

Proceedings of the National Conference at Omaha.

INTERESTING REPORTS FROM THE STATES. Reports that have been instituted during the past year—how the needy are being looked after—A Visit to Lincoln, Neb.

TAKING ON CHARITY. OMAHA, Neb., Aug. 27.—The National conference gave vigorously to work yesterday morning, taking first the committee on reports from States, of which Paul Howard, of Illinois, is chairman. The reports were very interesting.

Wisconsin tells of a home for soldiers and soldiers' wives, only men with wives being received. The home consists of a number of cottages, not of the usual city variety, but real cottages, most of them only big enough for two pairs of people. Michigan reported very little progress, although every year is making progress for the State Board having been defeated in the last Legislature, including the bill for the indeterminate sentences of convicts, which failed for want of the Governor's signature. Ohio reported a new county jail system, so arranged that prisoners have separate cells and can't see each other. This State claims the enormous number of 8,500 inmates in State asylums for the insane.

The report for Illinois, including General Alton's report, was that the State had a large and important representation. Some time ago a request was made on the part of the Treasury asking for admission of large numbers of foreign soldiers who included being present at the drill. The matter was referred to the Secretary of State, who in turn said that the request must come through the resident Ministers in Washington. Secretary of State Hay had sent a telegram saying that exceptional privileges had been given by the United States Government to all foreign soldiers coming to the United States for the Chicago drill for their language, arms, equipments, etc., free of duty.

THE SALESMEN. A Movement on Foot to Form a National Association. PITTSBURGH, Pa., Aug. 27.—An important move has just been made by the salesmen of Pittsburgh. It is the formation of a National Trade Association under the auspices of the Knights of Labor. A meeting of all the salesmen's assemblies of the various cities of the country will be held in a short time, and the indications are that this conference will be held in this city. At that time an application will be made to the General Executive Board and Master Workmen of the Knights of Labor for recognition of the salesmen's assemblies in Pittsburgh, New York, Philadelphia, Cleveland, Chicago, Baltimore, Cincinnati and St. Louis will be a preliminary from their respective districts and form the National district under the same laws as govern the Glass-Workers' National Association.

Found the Safe Empty. NEWARK, N.J., Aug. 27.—Several years ago Samuel Allison served two terms in county jail of South County. During the last term he became an invalid and died soon after his term expired. His memory failed him, and he forgot the combination to his compartment of the county safe. He was short in his accounts, and it was claimed by his deputy that the locked compartment contained a large sum of money. This was generally believed. His bondsmen searched the safe, but no money was found.

Base-Hall. The National League games on Friday resulted as follows: At New York—Cincinnati, 5; New York, 2. At Washington—Indianapolis, 6; Washington, 4. At Philadelphia—Detroit, 7; Philadelphia, 4. At St. Louis—St. Louis, 13; Metropolitan, 6. At Louisville—Louisville, 11; Brooklyn, 0. At Cleveland—Athletic, 7; Cleveland, 1. At Cincinnati—Baltimore, 19; Cincinnati, 11. At Baltimore—League, At Minneapolis—Detroit, 5; Minneapolis, 4. At Milwaukee—La Crosse, 11; Milwaukee, 2.

Free & Co's. Address. NEW YORK, Aug. 27.—Several employees of Free & Co. were examined by Detective Davis yesterday touching the strange disappearance of the firm's books, but all of them were found to be densely ignorant on the subject. The hearing has been adjourned until Tuesday next. Free & Co. are making desperate efforts to raise the funds necessary to meet their liabilities, claiming that if they can be allowed time to realize on their assets a handsome surplus will remain after paying dollar for dollar.

The President's Western Trip. ST. LOUIS, Aug. 27.—President and Mrs. Cleveland on their arrival here Saturday, October 1, will proceed immediately to the residence of Mayor D. R. Francis, whose guests they will be until Monday evening, when they will take quarters in the hotel. The President and wife will spend Sunday, October 9, in Madison, Wis., the guests of ex-Senator Russell F. Jackson, at Nashville, Tenn., on Sunday, October 10.

Michigan Indians Convene. HANSFORD, Mich., Aug. 27.—The surviving members of the Ojibwa Indian tribe are in convention at Bush Lake, near here, to come to some agreement about the distribution of the \$102,000 recently granted the tribe by the Government in payment of land claims. The surviving members of this tribe are scattered all over the State, and they are men of intelligence. Their convention met in an orderly way, after the manner of the whites.

Organizing for Self-Protection. ST. JOSEPH, Mo., Aug. 27.—Owing to the wholesale stealing of horses in Southern Iowa, Northwestern Missouri and Eastern Kansas and Nebraska the farmers are organizing a protective association for the prevention of such thefts. Over two hundred and fifty horses have been stolen in nine counties of Missouri inside of four months, only thirteen of which were recovered. The gang is said to be under the leadership of the notorious Franklin brothers.

An Ex-Congressman Jailed. PARKERSBURG, W. Va., Aug. 27.—Ex-Congressman Gibson was yesterday fined \$50 and sent to jail at Huntington by Judge McGinnis for contempt of court. Gibson and McGinnis have been at enmity for years, and the former, while trying a case before the judge, intimated that he was open to bribery.

Charged with Embezzlement. KANSAS CITY, Mo., Aug. 27.—J. A. Warner, president, and C. H. Shapps, cashier of the First National Bank of Burlington, Col., were arrested here yesterday on the charge of embezzling funds of the bank, which reached \$40,000. The amount of the loss was about \$40,000.

## BEECHER'S SUCCESSOR.

Rev. Dr. Parker, of England, Likely to Be Called to the Pulpit of Plymouth Church.

NEW YORK, Aug. 27.—Dr. Parker of the Temple Church, London, is here on his way to the United States, which is due here to night. He will make his headquarters for some time at the Plymouth Church, which is due here to night. There is a decided difference of opinion among the congregation as to the propriety of having Dr. Parker as the successor of the late Dr. Beecher. His ability and his character are not questioned. There is, however, a strong feeling of repugnance among those who sat at the feet of Mr. Beecher toward the idea of putting a foreigner in his place. There is a large element among the congregation who would prefer to have the door of the famous church closed, and to have it become a thing of the past. There is an opinion prevalent among the admirers that an American can be found to succeed him. There is no lack of Anglican candidates for Mr. Beecher's place. Of these Mr. W. R. Ford, formerly of Indianapolis, a very brilliant man, and son-in-law of a former pastor, seems to be the most popular.

THE INTERNATIONAL DRILL. Preparations for Large Delegations to "Camp Sheridan" in October. CHICAGO, Aug. 27.—It has been decided to have the camp at the international drill "Camp Sheridan," and the Lieutenant-General of the army has written in warm terms his acceptance and appreciation of the high compliment tendered him. Lieutenant-General Alton yesterday wrote that Ohio would have a large and important representation. Some time ago a request was made on the part of the Treasury asking for admission of large numbers of foreign soldiers who included being present at the drill. The matter was referred to the Secretary of State, who in turn said that the request must come through the resident Ministers in Washington. Secretary of State Hay had sent a telegram saying that exceptional privileges had been given by the United States Government to all foreign soldiers coming to the United States for the Chicago drill for their language, arms, equipments, etc., free of duty.

THE SALESMEN. A Movement on Foot to Form a National Association. PITTSBURGH, Pa., Aug. 27.—An important move has just been made by the salesmen of Pittsburgh. It is the formation of a National Trade Association under the auspices of the Knights of Labor. A meeting of all the salesmen's assemblies of the various cities of the country will be held in a short time, and the indications are that this conference will be held in this city. At that time an application will be made to the General Executive Board and Master Workmen of the Knights of Labor for recognition of the salesmen's assemblies in Pittsburgh, New York, Philadelphia, Cleveland, Chicago, Baltimore, Cincinnati and St. Louis will be a preliminary from their respective districts and form the National district under the same laws as govern the Glass-Workers' National Association.

Found the Safe Empty. NEWARK, N.J., Aug. 27.—Several years ago Samuel Allison served two terms in county jail of South County. During the last term he became an invalid and died soon after his term expired. His memory failed him, and he forgot the combination to his compartment of the county safe. He was short in his accounts, and it was claimed by his deputy that the locked compartment contained a large sum of money. This was generally believed. His bondsmen searched the safe, but no money was found.

J. W. SALE, Judge.

[illegible]

ALL PATENTS U.S. PAT. OFF. 2,100,000  
 and Commissioner, MILWAUKEE, WISCONSIN.

**A POSITIVE** Cure without  
 Medicine. Patient  
 can breathe and  
 sleep. One box will  
 cure the most  
 obstinate case in four days or less.

**Allen's Soluble Medicated Bougies.**

No sickening results, as from the use of  
 catharsis, opiacs or oil of sandalwood which  
 are certain to produce dyspepsia.

Price \$2. Sold by all druggists or mailed on  
 receipt of price to J. C. Allen Co., New York.

Particulars, send for circular.

**J. C. ALLEN CO.**

P. O. Box 1023 or 83 John St., N. Y.
